Mercury HIGH SPEED USB

1. USB "A" connector

Please insert the FINAL USB type "A" connector into the computer or iUSB Power labelled "⚡ + ♪".

2. USB "B" connector

The FINAL USB type "B" connector labelled 'iFi' please insert into the type "B" port of the DAC or the iPurifier (which is then inserted into the DAC).

3. RF³ Silencers

All USB cables due to their inherent nature inevitably pickup AND radiate radio frequencies that negatively impact the sonic performance.

On the Mercury USB cable, there are 3 sets of RF³ Silencers. Two are best located at each respective end.

Note: The custom-designed metal oxide ceramic RF silencers offer different permeabilities. Compared to generic filters this atypical approach is incredibly effective; over the widest frequency range.
