

ifi Product Safety Guide

1. WARNING: Read all safety information below (where applicable) and operating instructions before using iFi Product. To avoid injury failure to follow these safety instructions could result in fire, electric shock, or other injury or damage to iFi Product or other property.

2. Important safety instructions

Read and follow these instructions to use iFi Product safely.

- Read these instructions.
- Keep these instructions.
- Heed all warnings.
- Follow all instructions.
- Do not use iFi Product near water.
- Clean only with a dry cloth.
- Do not block any ventilation openings. Install in accordance with these instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other devices (including amplifiers) that produce heat.
- Protect the power cord from being walked on or pinched, particularly at the plugs and at the point where it exits from iFi Product.
- Only use attachments/accessories specified by iFi.
- Unplug iFi Product during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when iFi Product has been damaged in any way, such as when the power cord or plug is damaged, liquid has been spilled or objects have fallen into iFi Product, or iFi Product has been exposed to rain or moisture, does not operate normally, or has been dropped.

3. Charging

Charge the product with the charging cable and a power adapter or computer. Only charge with an adapter that is compliant with applicable country regulations and international and regional safety standards, including the International Standard for Safety of Information Technology Equipment (IEC 60950-1). Other adapters may not meet applicable safety standards, and charging with such adapters could pose a risk of death or injury. Using damaged cables or chargers, or charging when moisture is present, can cause fire, electric shock, injury, or damage to the case or other property. When using a wireless charger, avoid placing metallic foreign objects on the charger (for example, keys, coins, batteries, or jewelry), as they may become warm or interfere with charging.

4. Built-in battery.

Don't attempt to replace or remove the battery yourself—you may damage the battery, which could cause overheating and injury. The built-in battery should be replaced by iFi or an authorized service provider, and must be recycled or disposed of separately from household waste. Dispose of batteries according to your local environmental laws and guidelines. Don't expose your iFi Product to extreme heat sources, such as radiators or fireplaces, where temperatures might exceed 212°F (100°C).

5. Power

If iFi Product has no on/off switch. To disconnect iFi Product from power, unplug the power cord. Make sure the power cord is always easily accessible. When connecting or disconnecting iFi Product, always hold the plug by its sides. Keep fingers away from the metal part of the plug.

6. Power Adapter.

To operate the Power Adapter safely and reduce the possibility of heat-related injury or damage, do one of the following:

- Plug the Power Adapter directly into a power outlet.
- If you're using the Power Adapter Extension Cable, place the power adapter on a desk, table, or on the floor in a well-ventilated location.
- Don't use your iFi Product or its power adapter in wet locations, such as near a sink, bathtub, or shower stall, and don't connect or disconnect the power adapter with wet hands. Unplug the power adapter and disconnect any cables if any of the following conditions exists:
 - The USB-C cable or power cord has become frayed or damaged.
 - The plug part of the Power Adapter, the prongs, or the adapter case have become damaged.
 - Your iFi Product or Power Adapter has been dropped.
 - Your iFi Product or Power Adapter is exposed to rain, liquid, or excessive moisture.
 - You suspect the iFi Product or Power Adapter needs service or repair.

- You want to clean the iFi Product or Power Adapter. If debris gets onto the power port, remove it gently with a dry cotton swab.

Power Adapter specifications:

- *Frequency:* 50 to 60 Hz, single phase
- *Line Voltage:* 100 to 240 V
- *Output Voltage:* various (see individual product label)

7. Handling.

Handle your iFi Product with care. It is made of metal, glass, and plastic and has sensitive electronic components inside. Place your iFi Product on a stable work surface that allows for adequate air circulation under and around the product. Your iFi Product can be damaged if dropped, burned, punctured, or crushed, or if it comes in contact with liquids, oils, and lotions. Don't use a damaged iFi Product, such as one with a cracked screen, as it may cause injury.

8. Cleaning and care

To clean iFi Products, unplug the power cord and all cables. Then use a soft, dry, lint-free cloth. Avoid getting moisture in openings. Don't use window cleaners, household cleaners, aerosol sprays solvents, alcohol, ammonia, or abrasives to clean iFi Product.

9. Operating environment

iFi Product works best in ambient temperatures between 32° and 95°F (0° and 35°C) and can be stored at temperatures between -4° and 113°F (-20° and 45°C). While you're using iFi Product, it is normal for the case to get warm. The iFi Product case is designed to transfer heat from inside the unit to the cooler air outside. Do not operate iFi Product in areas with significant amounts of airborne dust or particulate matter that might clog the ventilation openings.

10. Repairing.

Your iFi Product doesn't have any user-serviceable parts. Do not open or disassemble iFi Product or attempt to repair it or replace any components. Disassembling your iFi Product may damage it or may cause injury to you. If you attempt to open your iFi Product, you risk damaging your product, and such damage isn't covered by the limited warranty on your iFi Product. If your iFi Product needs service, is damaged, malfunctions, or comes in contact with liquid, contact iFi or an iFi-authorized repair center, such as an iFi Authorized Service Provider. You can find information about getting service at ifi-audio.com.

11 Electrostatic shock

When using iFi Product in areas where the air is very dry, it is easy to build up static electricity and possible for your ears to receive a small electrostatic discharge from iFi Product. To minimize the risk of electrostatic discharge, avoid using iFi Product in extremely dry environments, or touch a grounded unpainted metal object before inserting iFi Product.

12. Prolonged heat exposure

Avoid prolonged skin contact with a device, its power adapter, the charging cable and connector, or a wireless charger when plugged into a power source, because it may cause discomfort or injury. For example, while the case is charging using the charging cable and a power adapter or a wireless charger plugged into a power source, don't sit or sleep on the case, charging cable, connector, power adapter, or wireless charger, or place them under a blanket, pillow, or your body. Take special care if you have a physical condition that affects your ability to detect heat against your body.

13. Hearing loss

Listening to sound at high volumes may permanently damage your hearing. Background noise, as well as continued exposure to high volume levels, can make sounds seem quieter than they actually are.

Always check the actual output volume on your earphone, headphone, or loudspeakers before playing audio, as many music player software and operating systems do not appropriately apply industrial standards governing volume control (e.g. USB Device Class Definition for Human Interface Devices). If in doubt, before playing any music, turn off CyberSync or any other volume synchronization feature on the iFi Product and bring the volume down to the lowest setting.

WARNING: To prevent possible hearing damage, do not listen at high volume levels for long periods.

14. Radio frequency exposure.

iFi Product uses radio signals to connect to wireless networks. For information about radio frequency (RF) energy resulting from radio signals and steps you can take to minimize exposure, go to ifi-audio.com/product-guides.

15. Medical conditions

If you have a medical condition that you believe could be affected by using iFi Product (for example, seizures, blackouts, eyestrain, or headaches), consult with your physician prior to using iFi Product.

16. Medical devices

The iFi Product contains radios that emit electromagnetic fields. These electromagnetic fields may interfere with pacemakers, defibrillators, and other medical devices. Keep at least 6 inches (approximately 15 cm) of separation between your pacemaker or defibrillator and the remote. If you suspect the remote is interfering with your pacemaker or any other medical device, stop using it and consult your physician for information specific to your medical device.

17. Explosive atmospheric

Using iFi Product in any area with a potentially explosive atmosphere, such as areas where the air contains high levels of flammable chemicals, vapors, or particles (such as grain, dust, or metal powders), may be hazardous. Obey all signs, and instructions.

18. High-consequence activities.

Your iFi Product is not intended for use where the failure of the product could lead to death, personal injury, or severe environmental damage.

19. Choking hazard.

Some iFi Product accessories may present a choking hazard to small children. Keep these accessories away from small children.
